

NEXUS ENTERPRISE SOLUTIONS

CYBERSECURITY OPERATIONAL STANDARD & REMOTE ACCESS GUIDELINES

Document ID: SOP-SEC-2025-v1

Effective Date: 2025-02-01

Access Level: Restricted

Department: Security

1. CYBERSECURITY MANDATE

Data protection and network integrity are paramount to enterprise operations.

2. REMOTE ACCESS & NETWORK SECURITY

2.1 Remote Working Restriction: For security audit compliance and endpoint protection, employees may work remotely up to 2 days per week.

2.2 Multi-Factor Authentication: All remote access to enterprise resources requires mandatory hardware key or MFA push authentication.

2.3 Device Security: Workstation screens must automatically lock after 3 minutes of inactivity. Storing company confidential data on personal devices is strictly prohibited.
